

# Robin Martin, PA-C

GET TO KNOW ONE OF OUR AMAZING PROVIDERS

Robin earned her bachelor's degree from University of Washington's Medex Physician Assistant program in 2009. For the next 12 years she worked in Washington State at a community health clinic doing family practice and urgent care until the state COVID mandates took effect. After much prayer the Lord directed her to reject the mandates and be let go from her very secure employment and to trust in Him.

Shortly after her last day she heard about Heart of Hope Health when they were having meetings at a church. Robin contacted Dr. Duke regarding employment and the Lord opened all the doors for her. She has been here since opening day and has expressed that this is the most amazing job she has ever had.

"Every day that I am here is a blessing. God is so good!"

When not working She enjoy time with her husband and 5 kids. She has 10 grandchildren that fills her with joy to be around. Her hobbies are reading, gardening, camping and kayaking.

SHE WORKS EVERY MONDAY AND TUESDAY
